Preface

Welcome to our second Spring sale of 2023!

This auction offers an extensive selection of Swedish coinage from Olaf Skötkonung to modern times with a very extensive offering of Bernadotte era coinage in high grade. From the earlier coinage we note a 16 öre Gustav Vasa, a rare high grade Kristina 4 mark 1647 and a superb example of Karl XIII ducat 1816 - the most scarce date!

Furthermore there is a relatively broad range of ancient coinage, and a beautiful selection of Finnish and Russian coins, as well as a few Chinese highlights. We would also like to mention a few Olympic medals, both prize medals and participation medals.

As usual we offer live online bidding for the duration of the auction, as well as participation in the auction room in Stockholm. Phone bidding can be arranged for important lots, at our discretion.

We look forward to your participation, in the room in Stockholm, or from afar!

This scarce and historically interesting coinage is part of a series of klippes and round coins struck during the so called Dacke War (Dackefejden) 1542-43. Nils Dacke, whose name this feudal uprising against King Gustav I bears, was a farmer from Vissefjärda in the southern part of Kalmar County, close to the Danish border in Danish Blekinge County. The unrest was stemming from King Gustav's approach to centralise power, which resulted in increased taxation enforcement and politics concerning the Church. Initially in November 1542, an agreement was made whereby Dacke was elected leader for the farmers of Småland County. Kronoberg Castle, located by Helgasjön (Helga lake) a few km north of Växjö, served as base for Dacke and he put forward several reforms. E.g. resumption of border trade with Denmark and some important changes relating to the Church. King Gustav could hardly accept this contraction of his own policies and thus in the Spring of 1543 the King attacked Dacke and his men. After a few months of clashes, eventually Nils Dacke was killed in August. It has been told that the King posthumously gibbeted the body of Dacke for public display in Kalmar's gallows hill. Out of savagery the King left nothing to chance and imprisoned Dacke's son and let him perish and starve to death. The interesting klippes are the first square coinage of Sweden where the dies have been specifically made for striking on square planchets. Klippe coinage has an advantage over round coinage in that the production method was faster and easier, thus also cheaper to produce. Thence the Crown has often struck klippe coinage in times of political unrest or urgent need of coinage. In conjunction with the Dacke War there was an immediate need to supply payment to Danish mercenaries. The odd denomination of 15 öre is related to the King's hope that the mercenaries would accept 15 öre to 1 gyllen in payment. In reality this was of course not accepted by the soldiers. Hence the klippe series was widely not accepted by the soldiers as payment, and the round coinage of 16 öre was consequently struck. One gyllen was equal to 18 öre at the time, so in the end The King did manage to get a discount...

- 70 **SM 116 (?)** 1 öre 1644 (?). 50.41 g. Avesta (?). Well struck obverse in high grade. Edge clip from production. Reverse crudely struck with rusty dies, resulting in a planchet defect at the date. MDC is clearly visible, and the foot of and X can be seen at an angle - however the short distance to the centre of the coin leaves few options. Obverse inscription CHRISTINA.D.G.SVE.GOT.WAN.DESI.REGI.ET.PR.H:. Crown type of 1638. This obverse inscription is only occurring on dates 1638-1644. Pretty much only "XL", "XL4", "XLI" can fit. The obverse matches perfectly to Törngren 44-E3, and the reverse is described by Törngren as being overpunched on 1641 (MDCXLI) which would explain the short distance. However upon comparison with three known examples of 1641 none of those show the M in the date at the arrowhead, and neither does any studied example of 1644 date. It is thus unclear if this is a new variety of 1641 or 1644 - but the obverse is clearly linked to 1644 production. Studied examples of the MDCXL4 variety show the arrowhead usually pointing to D or the space between MD. We have found none that actually point towards M. Also all studied examples of this variety show the same spelling but different crown to obverse of 1641. And interesting example to study further for the specialist!

Auction conditions

The auction is voluntary and is conducted on behalf of the vendors. The lot shall be sold to the person making the highest bid at a sum equal to the next highest bid plus a fixed increase. If there is only one bid the lot will be sold for the starting price. In the event of two identical bids the first bid received has priority.

All bids must be made in Swedish crowns (SEK). All invoices pertaining to auction purchases are made out by AB Philea, the financial and legal counterpart to all buyers and vendors at the auction.

Commission of 21 % is added to the hammerprice for both domestic and foreign customers. AB Philea uses the "Margin scheme" (also known as the "Global System") meaning that no VAT will be specified on invoices. When incurred, expenses for insurance and postage are also added.

Bids made are binding. In the event of bids being presented by persons on behalf of another (agents) the person presenting the bid is liable to satisfy the sales conditions as if it were his own bid. The person presenting the bid is also responsible for errors made by him in when acting as agent at the auction. Similarly, the person presenting the bid is liable for any errors or misunderstandings in the case of unconfirmed bids by telephone or telegraph.

The auction will be conducted with as much care as possible but without any undertaking on our part. We reserve the right to reject persons from the auction and decline bids without giving any reason for doing so. We also reserve the right, in the event of misunderstanding or differences of opinion, to re-offer the goods for auction.

Payment for lots purchased by a bid at the auction shall be made in cash, or against a pro forma invoice. The lots remain the property of the vendors until such time as full payment is made. Payment shall be made within 8 days of the date of invoice. In the event of delay in payment interest is charged at 2 % of the invoiced sum for each month commenced plus a reminder fee of SEK 40. If payment has not been received by us within, at the latest, 30 days after the date of invoice or if the purchaser refuses to pay, we are entitled to sell the lot at the purchaser's expense without giving any further notice. If this occurs the sum received on sale, after deduction of sales expenses, will be deducted from the unpaid debt. Any sum remaining due will be subsequently recovered by legal measures.

Foreign customers will receive pro forma invoices.

Lots are sold "as is" except where other remarks concerning their state have been made in the catalogue. This means, among other things, that defects not visible in photographs or deviations from descriptions of state of individual articles are not regarded as defects. Information regarding grades are our opinion only, and are therefore not grounds for complaints or returns. For collections and accumulations tradesmen are not entitled to make any claims and private consumers rights are limited to those stipulated in Section 9 of the Swedish Consumers Sales Act.

Complaints must be presented within a reasonable time after the purchaser discovered or ought to have discovered the defect, normally within 10 days following the purchaser's receipt of the lot or his having had such opportunity following notification by his post office of the lot's arrival. If a complaint is approved the price of the lot will be repaid to the purchaser plus any postage.

The presentation of verbal bids or auction instructions means that the above conditions are approved.

The auction is conducted and sales made are subject to the exclusive jurisdiction of the Swedish courts and is subject to Swedish law.

Auktionsvillkor

Auktionen är frivillig och sker för inlämnarens räkning. Objektet säljes till högstbjudande för näst högsta bud + en fast höjning. Finns endast ett bud säljes objektet till utropspris. Av två lika bud gäller det först inkomna. Underbud accepteras ej.

Alla bud skall avgas i svenska kronor. Alla fakturor avseende köp på auktionen ställs ut av AB Philea, org.nr 556326-1949, som är ekonomisk och juridisk motpart för alla köpare på och inlämnare till auktionen.

Köparprovisionen är 21 % på klubbat auktionspris, även för utländska kunder. AB Philea använder sig av vinstmarginalsystemet (VMB), vilket betyder att moms inte specificeras på fakturor. Dessutom tillkommer i förekommande fall porto- och försäkringskostnader.

Avgivet bud är bindande. Vid bud för annans räkning ansvarar budgivaren för att försäljningsvillkoren uppfylles som om det vore eget bud. Budgivaren är också ansvarig för av honom gjorda fel i auktionsuppdraget. Likaså vid obekräftade telefon- och telegrambud är budgivaren ansvarig för ev. fel och missuppfattningar.

Auktionsuppdrag behandlas så omsorgsfullt som möjligt, dock utan några andra åtaganden från firmans sida. Vi förbehåller oss rätten att avvisa personer från auktionen och avböja bud utan att ange skäl härför. Vi förbehåller oss rätten att vid missförstånd eller meningskiljaktigheter utlysa ny budgivning.

Betalning sker kontant eller mot förskottsfaktura. Objektet förblir säljarens egendom till dess full likvid erlagts. Likvid skall erläggas inom 8 dagar från fakturadatum. Vid senare betalning debiteras ränta med 2 % per påbörjad månad räknad på fakturabeloppet, samt kravgift med 40 kronor. Har likvid ej inkommit 30 dagar efter fakturadatum eller om köparen vägrar att betala, kan objektet utan ytterligare meddelanden säljas på köparens bekostnad.

Utländska kunder erhåller förhandsfaktura.

Objekten säljs i befintligt skick såvida inte andra utfästelser om deras beskaffenhet har gjorts i katalogen. Detta innebär bl.a att som fel betraktas i första hand på foto ej synliga defekter eller avvikelser från beskrivning av enstaka objekt. Uppgifter om kvalitetsbeteckningar är endast vår uppfattning, och utger i sig ej underlag för reklamation. Beträffande samlingar eller partier innebär det att näringsidkare inte äger rätt att göra några påföljder gällande och att den enskilde konsumentens möjlighet är begränsad till vad som stadgas i konsumentköplagens § 9.

Reklamationer skall göras inom skälig tid efter det att köparen upptäckt eller bort upptäcka felet, normalt inom 10 dagar efter det att köparen har mottagit objektet eller haft möjlighet att göra detta genom avisering om objektens översändande från dennes postanstalt. Vid godkänd reklamation återfår köparen auktionspris plus 21 % och ev. porto.

Avgivande av muntliga bud eller auktionsuppdrag innebär godkännande av ovanstående villkor.
